

## Notes

- · Topics indicated well colors

  · Frequency denoted by

  shading (like a heatmap)
- · Can obstinguish between individual books v. entire series
  - chart can be interactive
- · Can switch topic rows for comparative purposes

## Motivation

- · Tracks themalic occurrences via word usage
- · Dota is not particularly comparative:
- · Solves issues
  around series
  v. extre each
  novel

## Next Steps

- · How to break up each section?

  > by enapter, page no., etc.
- · How to determine frequency
